## Invitation to participate

**16<sup>th</sup> International Conference & Exhibition on the Joining of Materials JOM 16  
7<sup>th</sup> International Conference on Education in Welding ICEW-7.  
May 10<sup>th</sup> to May 13<sup>th</sup> 2011 in Helsingør - (Elsinore) –Denmark.**

The JOM series of biennial International Conferences & ‘know how’ Exhibition in Welding Technology goes back five decades to the nineteen seventies. Since 1979, the JOM Conference has been at the forefront in promoting research and development in joining and material technology.

More recently, training, qualification and certification of welding personnel have become increasingly important. The implementation of recent knowhow through Education and Training is now a key part of modern welding technology.

### Main Topics, Call for Papers and Exhibition

The organisers cordially invite you to attend JOM 16/ICEW-7, whether you wish to participate, to give a presentation of your activities, or you wish to publicise and share the knowhow of your enterprise or research group with fellow researchers and engineers.

### Main Topics

The conference programme will cover all aspects of developments in joining and material technology but papers are especially invited on the following topics:

- Recent developments in joining technology- welding, soldering, brazing,
- Advances in materials, metallurgy, weldability
- Applications with close relevance to industry needs, including oil & gas, power generation,
- Weld quality, structural properties and environmental considerations,
- Education, training, Qualification & Certification of welding personnel
- Process monitoring, sensors, control.
- Mathematical modelling and simulation

### Call for Papers

As we would welcome your participation at the JOM 16 International Event for presentation and/or the exhibition, please fill in the attached Registration form and return it by either e mail or post with a title and a short abstract of your paper before **November 15, 2010**.

Notification regarding author guidelines for the preparation of the full paper will follow after pre reviewing of the abstracts by the JOM Technical Panel by **December 31, 2010**.

The full paper for publication in the Conference Proceedings will be required by **February 28, 2011**.

## Exhibition

For those wishing to exhibit, please indicate the size of space you will require.  
Exhibiting your products is free of charge for the delegates of JOM16/ICEW-7 conference.

## Publication of Conference Papers

Papers for presentation at the conference will be selected and approved by a Technical Committee on the basis of technical merit and relevance to the conference program.

Each paper will be peer reviewed for technical accuracy by the Technical Panel of International Experts in order to ensure the quality of the Conference Proceedings. The JOM 16/ICEW-7 Conference Proceedings will be assigned an ISBN number for publication
